SS.912.FL.1.2:	Understand how cognitive biases affect personal financial decision-making. Benchmark Clarifications: Clarification 1: Instruction includes biases such as loss aversion, the endowment effect, herd mentality, anchoring, and present bias.	High School Module 4: Road Trip High School Module 5: Junk In The Trunk
SS.912.FL.1.3:	Explain that loss aversion implies that losses brought about by a decision are weighed more than the gains, which may affect the final decision.	High School Module 11: Take This Bet High School Module 17: Pay Me While I Sleep High School Module 18: Time Travel High School Module 19: Cryptocurrency
SS.912.FL.1.4:	Explain that people place more weight on something they already have as opposed to things they do not. This endowment effect can result in people being reluctant to part with things they possess.	High School Module 17: Pay Me While I Sleep High School Module 18: Time Travel High School Module 19: Cryptocurrency
SS.912.FL.1.5:	Evaluate how herd mentality affects personal financial decision-making.	High School Module 2: Breathing Without Air High School Module 3: Kick Some Buck
SS.912.FL.1.6:	Describe how a piece of information received early, even if incorrect or irrelevant, can provide an anchor that people use when making their personal financial decisions.	Middle School Module 4: Who And What Should You Trust?

	<p>Benchmark Clarifications:</p> <p>Clarification 1: Instruction includes students working in collaborative groups to discuss various scenarios in which information may have been influential to financial decision-making.</p> <p>Clarification 2: Instruction includes the analysis of correct and incorrect and relevant and irrelevant information to inform financial decisions.</p>	<p>High School Module 2: Breathing Without Air</p> <p>High School Module 3: Kick Some Buck</p> <p>High School Activity 6: How Do You Obtain Accurate Information?</p>
SS.912.FL.1.7:	<p>Describe how people often focus on information that confirms their original beliefs when they research information to make personal financial decisions.</p> <p>Example: Bill is currently in the market for a new vehicle, and he is extremely interested in a particular "dream car" to purchase. Bill has researched this vehicle and found several negative reviews that are counter to his beliefs about his "dream car." How might Bill proceed with this financial decision?</p>	<p>High School Module 1: When It Hits The Fan</p> <p>High School Module 2: Breathing Without Air</p> <p>High School Module 3: Kick Some Buck</p>
SS.912.FL.1.8:	<p>Identify examples of how people are affected by present bias.</p> <p>Benchmark Clarifications:</p> <p>Clarification 1: Instruction includes the effect of present bias on financial decision-making.</p>	<p>High School Module 1: When It Hits The Fan</p> <p>High School Module 2: Breathing Without Air</p> <p>High School Module 3: Kick Some Buck</p>

Earning Income:

SS.912.FL.2.1:	<p>Describe how people choose jobs or careers for which they are qualified based on potential income as well as non-income factors, such as job satisfaction, independence, risk, family, or location.</p> <p>Example: Interview three individuals who work at different jobs to identify the non-income factors that influenced their career or job choice.</p> <p>Benchmark Clarifications:</p> <p>Clarification 1: Instruction includes the identification of non-income factors and the importance</p>	<p>High School Module 14: Who Needs Money</p> <p>High School Assignment 3: What Job Is Right For You?</p>
----------------	--	---

	<p>of these factors as compared to potential income.</p> <p>Clarification 2: Instruction includes the ways that an individual can earn income: full-time employee, part-time employee, self-employment, investment, or passive income.</p>	
SS.912.FL.2.2:	<p>Explain that people vary in their willingness to obtain more education or training because these decisions involve incurring immediate costs to obtain possible future benefits. Describe how discounting the future benefits of education and training may lead some people to pass up potentially high rates of return that more education and training may offer. Remarks and Examples: Explain how people's willingness to wait or plan for the future affects their decision to get more education or job training in a dynamic and changing labor market. Speculate how a high school student might assess the future benefits of going to college, and describe how that assessment will affect the student's decision to attend college.</p>	<p>High School Module 14: Who Needs Money High School Assignment 4: What School Would You Like To Attend?</p>
SS.912.FL.2.3:	<p>Analyze the ways that people can make more informed education, job, or career decisions by evaluating the benefits and costs of different choices.</p> <p>Benchmark Clarifications: Clarification 1: Instruction includes comparing the benefits, costs, and the return on investment of a college education to those of a technical school. Clarification 2: Instruction includes comparing the unemployment rates of workers with different levels of education. Clarification 3: Instruction includes various career pathways including those that do not require college attendance.</p>	<p>High School Module 14: Who Needs Money High School Assignment 5: Does A Student Loan Make Sense?</p>
SS.912.FL.2.4:	<p>Analyze the reasons why the wage or salary paid to workers in jobs is usually determined by the labor market.</p> <p>Benchmark Clarifications: Clarification 1: Instruction includes the variance of wages or salaries among workers in different types of jobs and among workers in the same jobs. Clarification 2: Instruction includes the importance of worker productivity to businesses and why a business may decide to pay workers differently depending on their productivity.</p>	<p>High School Module 14: Who Needs Money High School Assignment 6: Developing Your Personal Balance Sheet</p>
SS.912.FL.2.5:	<p>Discuss reasons why changes in economic conditions or the labor market can cause changes in a worker's income or may cause unemployment.</p> <p>Example: Explain how an increase in the demand for mobile applications might affect the wages paid to software developers.</p> <p>Benchmark Clarifications: Clarification 1: Instruction includes discussing how a recession may impact the unemployment</p>	<p>High School Module 14: Who Needs Money High School Assignment 6: Developing Your Personal Balance Sheet</p>

	<p>rate.</p> <p>Clarification 2: Instruction includes how changing and emerging technologies may impact the unemployment rate.</p>

Buying Goods and Services:

SS.912.FL.3.1:	Analyze the factors that influence a consumer's decision-making process (e.g., the price of a good or service, the price of alternatives, income level, personal preferences, advertisements, and reviews.) Example: Develop scenarios that explain the factors that influence an individual to purchase a specific brand and style of athletic shoes. Benchmark Clarifications: Clarification 1: Instruction includes the comparison of consumer decisions to purchase a similar item.	High School Module 1: When It Hits The Fan High School Assignment 2: Developing Your Financial Goals
SS.912.FL.3.2:	Explain that the consumption of a good or service can have positive or negative effects on others. Benchmark Clarifications: Clarification 1: Instruction includes an analysis of the effects that activities such as smoking cigarettes or attending school may have on self, other individuals, or the community at large.	High School Assignment 2: Developing Your Financial Goals
SS.912.FL.3.3:	Discuss that when buying a good, consumers may consider various aspects and features of the product. Example: Given a scenario that includes various features of automobiles, determine which automobile to purchase. Benchmark Clarifications: Clarification 1: Instruction includes explaining why the consumer should consider a product's durability and maintenance costs prior to the purchase of goods.	High School Assignment 7: How Do You Obtain Accurate Information?
SS.912.FL.3.4:	Describe ways that consumers may be influenced by how the price of a good is expressed. Example: Given a product and a price, develop three advertisements for a retailer using the following information: 50% off, buy one get one free, and two items for a single price (e.g., buy 2 for \$5 or 1 for \$3). Example: Write an expository paragraph that explains why a store might advertise the price of a TV expressed as an amount per day or week rather than the actual full price. Benchmark Clarifications:	High School Assignment 10: What's The Best Way To Pay For Items?

	Clarification 1: Instruction includes understanding the different ways retailers express the prices of their products.	
SS.912.FL.3.5:	<p>Discuss ways people incur costs and realize benefits when searching for information related to their purchases of goods and services.</p> <p>Example: Write a newspaper column, "Tips for Consumers," explaining why searching for information may be more important when purchasing expensive, durable goods and services than for inexpensive and nondurable products. Include an explanation of how impulse buying can be avoided by sleeping on a decision before making a big purchase.</p> <p>Benchmark Clarifications:</p> <p>Clarification 1: Instruction includes understanding the relationship between the amount of information gathered and the benefits and costs of gathering the information.</p>	<p>High School Module 4: Road Trip</p> <p>High School Module 5: Junk In The Trunk</p> <p>High School Assignment 7: How Do You Obtain Accurate Information?</p>

Protecting and Insuring:

SS.912.FL.7.1:	Describe how individuals vary with respect to their willingness to accept risk and why most people are willing to pay a small cost now if it means they can avoid a possible larger loss later. Example: Discuss whether a premium paid to insure against an accident that never happens is wasted. Benchmark Clarifications: Clarification 1: Instruction includes understanding self-insurance and the practice of having an emergency fund. Clarification 2: Instruction includes understanding the potential effects on premium costs if in an emergency fund.	High School Module 15: Parachute Required
SS.912.FL.7.2:	Understand that insurance companies charge premiums to create a pool of money from which the company uses to pay for losses incurred by policyholders. Benchmark Clarifications: Clarification 1: Instruction includes understanding that insurance companies allow the risk of loss to be spread amongst all policyholders.	High School Module 15: Parachute Required
SS.912.FL.7.3:	Analyze and evaluate the cost-effectiveness of supplemental insurance. Example: Evaluate the cost-effectiveness of extended warranties on three consumer products: a new automobile, a smart phone, and a dishwasher. Consider the likelihood that the product will fail, the cost of replacing the item, and the price of the warranty. Benchmark Clarifications: Clarification 1: Instruction includes understanding how an extended warranty on a consumer product is a type of supplemental insurance.	High School Module 15: Parachute Required High School Assignment 19: Is An Extended Warranty Worth It?
SS.912.FL.7.4:	Describe why people choose different amounts of insurance coverage based on their willingness to accept risk, as well as their occupation, lifestyle, age, financial profile, and the price of insurance. Example: Given profiles for three individuals, consider options for appropriate insurance coverage based upon their unique level of personal financial risk.	High School Module 15: Parachute Required
SS.912.FL.7.5:	Explain how governments and contractual obligations can influence the decisions and responsibilities of individuals to obtain different forms of insurance. Example: Research and provide the laws and regulations that establish the amount of auto insurance drivers must purchase in Florida. Benchmark Clarifications:	High School Module 15: Parachute Required

	Clarification 1: Instruction includes understanding why homeowners' insurance is required by a lender when a homeowner takes out a mortgage.	
SS.912.FL.7.6:	Describe how an insurance contract can increase the probability or size of a potential loss. Example: Given an accident scenario, calculate the amount that would be paid on an insurance claim after applying exclusions and deductibles. Benchmark Clarifications: Clarification 1: Instruction includes understanding that having insurance may result in the policyholder taking more risks. Clarification 2: Instruction includes understanding that deductibles and copayments are cost-sharing features that encourage the policyholder to take steps to reduce the potential size of an insurance claim.	High School Module 15: Parachute Required
SS.912.FL.7.7:	Explain that people can lower insurance premiums by behaving in ways that show they pose a lower risk. Benchmark Clarifications: Clarification 1: Instruction includes factors that potentially lower insurance rates such as taking a safe-driving course to lower auto insurance cost or lower health insurance premiums for non-smokers.	High School Module 15: Parachute Required
SS.912.FL.7.8:	Identify the purposes of various types of insurance.
